BUILT TO FISH. BUILT TO LAST. BUILT TO BE THE ULTIMATE RIDE.
WHAT MAKES A STRIPER SO TOUGH?

Backbone. Ours is the Fibercore One-Piece Stringer System™, pioneered in the early 1960s. Versatile, capable and flexible enough to handle whatever you throw at them, every Striper is equipped with this innovative piece of technology.

Unlike some boat manufacturers who use wood in their stringers, our Fibercore Stringer Systems are made completely of laminated fiberglass and filled with polyurethane flotation foam for optimum strength-to-weight ratio. This helps keep the hull rigid, eliminating vibrations and providing a smoother, quieter ride. We utilize a unitized construction process to build our decks and floors, which are then bonded to the hull and Stringer System. This adds additional support and strength. In fact, our Stringer System leads the boat industry in terms of high-density strength. Because you can’t build the Ultimate Ride if you don’t have the ultimate Stringer System.

WHAT MAKES A STRIPER BUILT TO LAST?

As far as boat companies are concerned, we’re a bit on the stubborn side. Guess it comes from being named after a hard-nosed fish. But the results speak for themselves: Purposeful designs that exceed the applicable requirements of the US Coast Guard and NMMA.

According to US Coast Guard regulations, any vessel over 20 feet is not required to have flotation foam installed. But we put foam in all of our Stripers, regardless of boat length.

Aboard a Striper, attention to detail is mandatory. Every stainless steel component is through-bolted, and in many cases they have aluminum backing plates. All components are fastened together with aircraft-type self-locking nuts as well. In the few instances where we use wood, we only use pressure-treated, marine-grade plywood. Stripers also feature some of the best seats on the sea. Our seat frames, backs and bases are all made from Lexan™, a high-impact material built to last. We cover every seat with durable stain-resistant, marine-grade 30-ounce vinyl covers.

Do we overbuild safety and security into every Striper? You bet. But the stronger the boat, the longer it stays on the water. Catching fish.

---

THE CUSTOM FIT FIBERCORE ONE-PIECE STRINGER SYSTEM IS SECURED INTO THE HULL BY HAND. SEVERAL LAYERS OF FIBERGLASS ARE USED IN THE PROCESS LETTING OUR SKILLED CRAFTSMEN CONTROL WHERE AND HOW MUCH FIBERGLASS IS USED. THE RESULT: A THICKER, MORE UNIFIED CONSTRUCTION PROCESS THAT ADDS ADDITIONAL SUPPORT AND HELPS REDUCE ANY UNNECESSARY VIBRATIONS.

OVERLAPPING LAYERS OF HAND-LAID FIBERGLASS IN THE KEEL AND CHINES GIVE STRIPPERS THEIR SUPERIOR STRENGTH. BECAUSE THE OCEAN IS FILLED WITH JUST AS MANY OBSTACLES AS IT IS WITH FISH.

ONCE THE STRINGER SYSTEM IS IN PLACE, CLOSED-CELL FOAM IS SPRAYED IN EVERY AVAILABLE CAVITY BETWEEN THE INTERIOR FLOOR AND HULL BOTTOM IS FILLED, RESULTING IN INCREASED IMPACT RESISTANCE, GREATER NOISE REDUCTION AND A SMOOTH, SILENT RIDE.
What makes a Striper the ultimate ride?

Our state-of-the-art V Trac™ hull offers a degree of performance and reliability you won’t find in other hull designs. A Striper’s deep, wide bow shape is designed to maximize steering control while minimizing snaking and porpoising. We use the right combination of accurate lifting strakes, dead rise and reverse chine to achieve a smooth, stable, dry ride. A Striper’s spirited handling will make you think you’re in a sports car, racing across the ocean to get the day’s catch filleted and in a pan.

Another important aspect of construction is the detailed handwork we put into every Striper hull and deck. Layers made up of roving, fiberglass mat and cloth are precisely cut and carefully installed by our skilled craftsmen. Several layers of fiberglass are then rolled in by hand as opposed to by machine. By using just the right combination of fiberglass and composite materials, we reduce weight while maximizing strength. Plus, these calculated steps ensure consistent quality and control.

What makes a Striper stand out from the rest?

For starters, every Striper is loaded to the gills with features serious fishermen and their families will appreciate. Like aerated livewells with high-speed pickups. Did you know we have some of the largest livewells in the industry? Good to know should a tuna hunt turn red hot.

With plenty of room for gear and friends, our line of Stripers never compromises when it comes to having fun. Our cabins are ergonomically designed to feel like your second home. Floor plans are neatly laid-out, loaded with amenities and feature lots of soft padding and tasteful cloths and vinyls. So whether you’re going after Kings with the guys on weekends or teaching your kids the fine art of setting their own hook, Stripers are built to handle both.
**Walkarounds** are built to deliver a smooth, comfortable ride and a full fish box, regardless of weather conditions. Versatile cabin spaces make them both capable family cruisers and stay-out-and-play hardcore fishing machines. On board you’ll find ample room for shipmates, gear and, of course, fishing. Serious fishermen will envy you. Your family will love you. Fish will fear you.

**Center Consoles** are specifically designed to put you in the center of the action. Ideal for warm weather trips in both shallow and deep water, our open layouts give you plenty of room in the bow for casting and plenty of room in the cockpit for fighting fish. Not to mention all the right features, like self-bailing decks, bait prep stations and tons of storage. Catching fish is hard work. We’ve got a few workhorses that are up to the challenge.

**Dual Consoles** are our most versatile line of boats. From fishing to skiing to just flat-out cruising, they offer the ultimate escape for you and your family, while enhancing your on-water experience with amenities like comfortable seating, generous storage and elbow-room stretching to the horizon. So gather the family, climb aboard and start connecting. With fish and each other.

**Bay Boats** have been completely redefined for both serious inshore and light offshore fishing with our innovative 22 model. Our unique “sighting” console allows you to sight bait and fish from atop the console, then lower the handrail and remove the windshield to get under a bridge or into a garage. A trolling motor, power pole, hydraulic jack plate, one or two live wells, a release well, two lockable rod lockers and an extensive list of options let you create as simple or as technical a bay boat as you desire.

* New Model for 2009
Big, beamy and beefy, the Striper **3301 WALKAROUND** is your first-class ticket to adventure on the high seas. The spacious cockpit, deep freeboard (31 inches) and an extra-wide walkway make her ideal for fighting the biggest fish, and the 347-gallon fuel capacity means you can venture far and wide to find them. The walkthrough windshield provides convenient access to the bow, while the 11-foot beam not only makes the 3301 an extra-stable fishing platform, it means plenty of room for amenities in a cabin with 6’ 6” of headroom, which include all the standard and optional furnishings you could want for weekend cruises and entertaining. And of course, because she’s a Striper, she’s fully rigged and equipped for fishing. Be sure to check out the enhancements for 2009.
2901 WALKAROUND

CHOOSE FROM OUTBOARD (O/B) AND STERNDRIVE (I/O) MODELS
Welcome aboard the industry’s best-selling 29-foot wide-beam fish boat. The big cockpit, wide walkway and spacious cabin (with 6’ 5” of headroom) are just a few of the reasons for the Striper 2901 WALKAROUND’S popularity. Numerous enhancements for 2009 assure this boat will continue to lead its class, including a bait-rigging station with sink, cutting board, saltwater outlet and insulated bait cooler, optional second 30-gallon live well, enlarged seating areas, improved cockpit storage, increased cabin storage, teak and holly cabin sole and stainless steel rub rail. Add optional heating and air-conditioning and you’ve got a canyon-ready fishing machine with all the creature comforts for cruising, no matter what the clime or the seas.
2605 WALKAROUND

CHOOSE FROM OUTBOARD (O/B) AND STERNDRIVE (I/O) MODELS
NEW MODEL FOR 2009

Whether your quest for fish takes you a little ways offshore or to the tuna grounds beyond the Out Islands, you’ll get there in comfort and safety aboard the Striper 2605 WALKAROUND. Or maybe this is the weekend to take the family for a cruise down the Intracoastal. This boat will do either with equal facility. Above all, though, she will fish. Fully rigged and equipped with two 180-quart fish boxes and aerated live well, the 2605 offers plenty of options so you can set her up just the way you want to go after the big ones. Below, the spacious cabin has six feet of headroom and all the niceties needed to make even those who don’t live to fish, glad they came along.

Whether your quest for fish takes you a little ways offshore or to the tuna grounds beyond the Out Islands, you’ll get there in comfort and safety aboard the Striper 2605 WALKAROUND. Or maybe this is the weekend to take the family for a cruise down the Intracoastal. This boat will do either with equal facility. Above all, though, she will fish. Fully rigged and equipped with two 180-quart fish boxes and aerated live well, the 2605 offers plenty of options so you can set her up just the way you want to go after the big ones. Below, the spacious cabin has six feet of headroom and all the niceties needed to make even those who don’t live to fish, glad they came along.
2301 WALKAROUND

CHOOSE FROM OUTBOARD (O/B) AND STERNDRIVE (I/O) MODELS
Everything about the Striper **2301 WALKAROUND** is bigger than you’ll find in most boats her size. Two 92-quart fish boxes, 30-gallon live well, 25-inch gunwhale freeboard, 135-gallon fuel capacity and 5’ 7” of headroom in the cabin are just some of the numbers that illustrate the point. Harder to quantify, but just as important is a smooth, stable ride that’s the envy of many larger boats. Wide walkways, the exceptional spacious cockpit with a deep water-runoff channel and a cabin well appointed enough to deserve the name, are other features that make this the mid-size walkaround that leaves the rest in her wake.

2101 WALKAROUND

CHOOSE FROM OUTBOARD (O/B) AND STERNDRIVE (I/O) MODELS
Fast and maneuverable, big enough for a vee-berth sleeping area in the lockable cabin yet small enough for carefree trailering, the Striper 2101 WALKAROUND is supremely versatile, no matter what your idea of fun is. Of course, our idea of fun is fishing, so this boat is chock full of features for serious angling, from the tip of her integrated bow pulpit to her walk-through transom. The 105-gallon fuel capacity and 30-gallon live well mean you can stay out and keep fishing for as long as it takes to fill the two 92-quart fish boxes. Wide walkways and a roomy cockpit with 25-inch freeboard let you fight and land your catch with confidence.

See pages 30-37 for available power, features and options.
Don’t mistake the Striper **1851 WALKAROUND** for an entry-level boat. This fishing machine with 22-inch freeboard has everything needed and then some to satisfy hardcore anglers, from standard dual 76-quart fish boxes and an aerated 30-gallon live well to the tackle drawer and host of other options that allow you to set her up exactly the way you want. With the swim platform, bucket seats and versatile cabin area with marine head, family outings are just as much fun as fishing trips. And in an economical-to-operate platform like the 1851, the 62-gallon fuel capacity will take you a long way between fill-ups.
Don’t just go fishing, stalk the oceans in a Striper 2601 CENTER CONSOLE. Powered by a maximum of twin 175 hp four strokes and equipped with 160-gallon fuel capacity, our largest Center Console will get you far offshore fast. This oceangoing predator is fully functional, with a 30-gallon live well, two 180-quart fish boxes, recessed bow rail and 28-inch freeboard. And as hard-core as this boat is, you’ll also have amenities like a console head compartment, coaming pads and aft seating to make all-day outings pleasant, even for those who don’t always have a line over the side.
2305 CENTER CONSOLE

TEN YEAR TRANSFERABLE WARRANTY
NEW MODEL FOR 2009

Life is good aboard the **2305 CENTER CONSOLE**. Large enough for some heavy offshore stand-up work, anglers applaud its abundant workspace, not to mention its tough-as-nails construction. Recreational boaters simply love all the amenities, like its console changing room, swim platform and floor lockers. The family will be comfortable with the all-new bow seating. And the fish? Well, let’s just say they have a slightly different opinion. Do you really blame them?

Want a boat that makes everyone happy? The Striper **2101 Dual Console** with integrated bow pulpit is your answer. With a bait station, 30-gallon live well, two 64-quart fish boxes and one 248-quart in-deck fish box with macerator pump-out, you’ll be fully equipped to fish. The swim ladder, walk-through transom and large head make this boat equally suitable for family outings and day cruising. The 25-inch freeboard and smooth, balanced ride mean you can go hug the coast or go offshore with equal confidence, and with 105 gallons of fuel onboard, you’ll have the endurance to range far and wide.
Whether your game is lake trout or sea bass, the Striper 1851 DUAL CONSOLE combines fish-ability with versatility. At 28 inches, the freeboard is exceptionally deep for an 18-footer. A 30-gallon live well and 80-quart fish box, along with lockable rod storage and in-gunwale rod holders take care of the anglers. Plenty of comfortable seating, lots of deck space, a swim station and a surprising volume of general storage for coolers, water skis or whatever make the 1851 a great family fun boat too.

The Striper 22 BAY BOAT sets the standard for this class, period. For starters, there’s our sighting console, a unique innovation that turns the console into a tower when you’re fishing, but with integrated steps and railing that let you store your boat in the garage. Or you can opt for a 30-gallon live-well console to add to the 30- and 18-gallon live wells. Digital gauges, a 72-quart cooler, plenty of locking rod storage, fly rod storage and a Boga grip holder are all standard. Options include a power pole with remote control and Minn Kota trolling motor. Clean, custom looks and solid structural integrity … run this boat to believe how much better it really is!
LOOKING FOR INNOVATION, PERFORMANCE AND RELIABILITY? Look no further than Yamaha. Yamaha designs each engine with the latest technology and most advanced features. Covered by one of the industry’s best warranties, your Yamaha will perform reliably for years to come in any kind of water and in any kind of weather. When you want the best, you want Yamaha.

Boat smart from the start. Take a boating safety course and get a vessel safety check for your boat annually.

For more information, contact the United States Coast Guard Auxiliary at 800-368-5847 or on the web at www.cgaux.org or the United States Power Squadrons at 888-FOR-USPS or on the web at www.usps.org.
With the Volvo Penta sterndrive, Striper owners get smooth shifting, breathtaking acceleration and exceptional fuel economy. Plus, every Volvo Penta sterndrive is backed by a two-year limited warranty and the toll-free Volvo Action Service Line at 1-877-33-PENTA.

Equipped with Evinrude E-TEC outboards, Stripers have one of the most advanced engines available. Their exceptionally low exhaust and carbon monoxide emissions provide a cleaner, safer boating environment. All Evinrude E-TEC outboards are available in 25 through 300-hp and need no dealer maintenance for the first 3 years or 300 hours of recreational use. 1-866-EVINRUDE.

Reliable performance means more family fun, year after year, without missing a beat. Alpha drives slice through the water with an efficient hydrodynamic profile, producing very little drag. And because of the Alpha drive’s many maintenance-free features – you’ll enjoy a worry-free ownership experience.

With a power range of 135 to 300-hp, the four- and six-cylinder Verados deliver an amazing driving experience, superior reliability, jaw-dropping power and acceleration and the quietest, smoothest ride ever produced by an outboard. You have to live it to believe it.
With all the fish you’ll be hauling over the side, your Striper is bound to be in plenty of pictures. That’s why we offer a variety of hull accent colors with matching interior and vinyl accent colors.

**Standard**
- White

**Optional**

- Redfish

Protect your Striper and yourself from the elements with an optional canvas package made with high-quality Sunbrella® fabric. Ask your local Seaswirl dealer about which options are available for your model.
1. With space-saving comforts and quality workmanship, you'll enjoy being inside almost as much as out.

2. Deep, wide walkways with overboard drainage make it easy to keep your footing.

3. Every Striper comes equipped with aerated livewells to keep the bait alive.

4. With ample room in our fishboxes, your trophy catches won't look like sardines in a tin.

5 & 6. Beauty is in the abundance of the rod holder. They're conveniently located on each boat.

7. Raw water washdowns make it a snap to keep your boat looking shipshape.

8. With chairs that adjust, swivel and tolerate foul weather, you'll be sitting pretty for years to come.

9. Full galleys are standard on larger boats. So if you can't stand the heat, stay down in the kitchen.

10. Most models offer a handy cutting board. So you can fish and cut bait.

11. Our cleats are stainless steel, through-bolted, aluminum plate-backed and secured with locking nuts. How's that for peace of mind?

12. When the fish aren't biting, a Striper is still a great place to hang out and read a good fish story.

14. Full instrument panels are standard on all of our boats. Basically, all you have to do is steer.

15. Built-in tackle boxes keep all of your tools and gear close at hand.

SUPER BOATS, SUPER SERVICE

For the fourth straight year, the National Marine Manufacturers Association has recognized Striper for outstanding customer service. The Marine Industry CSI program acknowledges Striper as a company that maintains a consistently high standard of excellence in customer satisfaction. So when we say that satisfying our customers with super service as well as super boats is our top priority, we not only mean it, we prove it.

BACKED BY ONE OF THE BIGGEST NAMES IN BOATS …

As a division of Genmar MN®, Striper is backed by one of the world’s largest boat manufacturers. Genmar is also a marine industry leader in technology, innovation and commitment to environmental quality. When you buy a Striper, you not only get the cumulative result of more than a half-century of expertise and experience, you get a company with unexcelled resources in manufacturing innovation and the cutting-edge technologies to assure our fishing boats are the best afloat.

AND ONE OF THE BEST WARRANTIES IN THE BUSINESS

Every Striper is protected by a 10-year transferable structural hull limited warranty, good throughout North America. In plain language, this means we guarantee your boat to be free from defects for an entire decade. No boaters put their vessels to the test more—and more often—than avid anglers, so our warranty is a testament to the confidence we have in our design, engineering, workmanship and manufacturing technologies.
